

Remove that ball and chain.

And, retire at any age.

Don't be held prisoner by your medical malpractice carrier with burdensome tail vesting (extended reporting endorsement) requirements. At Medical Protective, you can qualify for tail coverage at any age with just a one-year vesting period.*

Other policies may require you to be a certain age, usually 55, or require you to be a customer for up to 5 years before your retirement to qualify for a free tail.

Coverage from Medical Protective allows you the ultimate flexibility in planning and budgeting for your retirement, without the hassles of long vesting requirements:

- **Permanently retire at any age.** We don't have an age requirement to qualify for our free tail.
- **One year vesting period.*** You only have to be insured with Medical Protective for one year to qualify for a free tail.

We encourage you to seriously compare and weigh your options and flexibility with Medical Protective—unparalleled strength, defense and solutions—all since 1899.

Early retirement is just a phone call away.
Call Medical Protective today and remove that ball and chain.
